PCI Cybersecurity Services

Penetration Testing Service

We offer best-in-class Penetration Testing services that meet the full scope of recommendations from the PCI SSC Information Supplement Penetrations Testing Guidance report.

PCI Internal Vulnerability Scanning (Quarterly)

Drummond will assess your internal networks to identify vulnerabilities and potential vulnerabilities and report findings for the PCI-mandated quarterly internal scans of the cardholder data environment.

PCI External Vulnerability Scanning (Quarterly)

Drummond has partnered with ASV Qualys to offer this service to our customers for the PCI-mandated quarterly external scans by an Approved Scanning Vendor (ASV).

Additional Cybersecurity Services

- **Physical Security Advisory and Testing Service**
- **Social Engineering Training and Testing Service**
- **Application Security Testing**
- **Red Team and Purple Team Advisory and Testing Service**

We provide additional cybersecurity services, beyond penetration testing, to improve security and to protect you in today's highly volatile business environment and beyond. For PA DSS compliance, our highly skilled experts provide comprehensive code reviews and analysis for the most up-to-date source code vulnerabilities for payment applications and are ready to provide rigorous external and internal testing of in-the-field 3rd party or custom applications.
